

Bigfoot Industries is a Lean-certified manufacturer of world-class Recreational Vehicles with 30 years of success and innovation behind us and a focus on continually improving both our products and our manufacturing facility.

We are currently seeking an Inventory Control Coordinator to join our Materials Department.

As an Inventory Control Coordinator you will be responsible for Cycle counting inventory on a daily basis and reconciling any differences found. This individual will work closely with Production, Purchasing, Bill of Materials Coordinator and Warehousing to ensure accuracy and consistency in cycle counts and inventory levels.

Prospective Applicants must have the following:

- Proficient in Microsoft Office applications, including Excel and Word
- Excellent mathematical skills
- Be familiar with both metric and imperial measurements
- Strong analytical abilities
- Experience in Manufacturing processes (RV Industry an Asset)
- Strong Problem Solving skills
- Familiarization with ERP systems and APICS
- Excellent verbal and written communication skills
- Ability to collaborate in a team environment
- Awareness of safe working practices and WHMIS
- Experience in Lean Manufacturing an asset.

If you meet these requirements and are interested in joining our team, please submit your resume to jobs@bigfootrv.com or fax it, Attention Human Resources, to (250) 546-2166, by June 1 2008.
